FEATURED PROJECTS

Inventory & Stock Management System | *React.js, Node.js, Express.js, Prisma ORM, MySQL, Tailwind CSS*

Live Demo

- Implemented JWT authentication with password hashing and input sanitization, following web security best practices.
- Built an analytics dashboard with optimized REST endpoints and indexed queries.
- Documented and manually tested REST endpoints with Postman to keep frontend-backend data contracts consistent.

Property Rental & Booking Platform | *React.js, Next.js, Node.js, Prisma ORM, MySQL, Tailwind CSS*

Live Demo

- Built a full-stack property rental application with search, dynamic filtering, and reservation management.
- Designed a relational schema with Prisma (foreign keys, indexing, transactions) to ensure data integrity.
- Implemented JWT authentication and role-based access control (Admin vs Tenant).

Educational Services Web Platform | *JavaScript, Bootstrap, PHP, MySQL, SEO Architecture*

Live Demo

- Built a course catalog and student registration with a mobile-first layout and technical SEO (metadata, page structure).

WORK EXPERIENCE

IT Infrastructure Staff (Web Application Development & Infrastructure) — PT. Global Niaga Internusa

Feb 2026 – Present | South Jakarta, Indonesia

- Built an internal workflow web application (React, Node.js) to replace manual handovers between departments; used by **25–50 employees**.
- Wrote Postman API test collections for the main endpoints and handled debugging during development and after release.
- Deployed and maintained internal apps and **12 company websites** on cPanel hosting, including DNS routing and SSL certificate management.
- Shared Postman collections and API notes with the team to speed up onboarding and integration.
- Administered company NAS storage and local network, and provided hardware/software maintenance and troubleshooting for **30** employee devices.

Freelance Full Stack Web Developer (via Fastwork) — Part-time
Feb 2023 – Present | Remote, Indonesia

- Delivered **20+** web projects for small business clients: company websites, admin dashboards, and booking/inventory features.
- Built REST APIs with Node.js, Express, and Prisma; integrated **Midtrans and Tripay** payment gateways, plus WhatsApp and email notifications.
- Improved existing client site performance by optimizing images and scripts (Lighthouse Performance score: **62** → **85**, mobile) and adding database indexes for slow queries.
- Handled requirements, revisions, and deployment directly with clients.
